

**We have a new role
within our practice team,
the Community Links
Practitioner.**

Your GP practice

**I've had dozens of
people trying to help
me before, but I've
never had one of you...**

Programme participant

What is a Community Links Practitioner?

I work with people to help them address the issues that matter to them. I find out what's happening in our community and can support you to access services, support or activities that might be of interest to you.

How can I help you?

I have time to talk about what is going on in your life. I take the time to listen to you and we can then try to identify any concerns or issues that you may have.

I can discuss what's in your area and whether you'd like to access anything. If you like, I can also try to help you access what's available.

I've helped people in different ways to deal with many different issues, including money problems, relationships, personal issues, or getting out and about and meeting more people.

I can try to help with anything.

I'd be very happy to meet with you. Just ask the GP, nurse or receptionist to make an appointment with me.

I look forward to meeting you soon.

Signature _____

I am employed by the Health and Social Care Alliance (Scotland). I can help you to address any issues that you feel may be affecting your health and wellbeing. It's helpful for me to access your medical record. I am held to the same confidentiality standards as your GP, nurse and wider primary care team. I can discuss this with you further. If you change your mind about me accessing your medical record at any time then please let me, your GP, nurse or receptionist know. This won't change how I continue to work with you.
